### OBJECTIVE

To be placed at a responsible position in a company where I can utilize my skills and knowledge for the attainment of its goals and prove myself as a valuable asset to it. I would strive hard for the growth of the organization, which in turn contributes to my personal growth.

### PROFESSIONAL SUMMARY

- **Having 4 years** of experience in development and implementation of Client-Server and Web based Applications using SAP and J2SE/J2EE technologies.
- Great exposure on working in the areas of **SAPUI5** , pretty much strong in the areas of SAP Workflow Cloud Platform as well as SAP CAP Service with **OData**
- Good amount of working exposure on various areas of **spring** framework, some of the modules I have been working on **spring-core** , **spring-aop** , **spring-jdbc** , **spring-transactions** , **spring-mvc**.
- Great exposure on working in the areas of **Dependency management and IOC Container**, pretty much strong in the areas of spring core as well as spring MVC with both annotation and configuration.
- knowledge of working in Restful implementation which honours latest **Rest (JAX-RS) Specification 2.0**
- Ample amount of Experience in both **core design patterns** and some of the design patterns that I have worked on cache, cache-manager, accessors, profiler, strategy, factory, service locator design patterns.
- Knowledge on basic Database concepts.
- Good team collaborator and self-motivated. I am always interested in working on new areas and I accept new challenges and I can meet the dead lines even at tight delivery lines by handling the pressure.

### WORK EXPERIENCE

- Working as a Software Engineer for **LTI**, Bangalore from June 2018 to till date.

## QUALIFICATIONS

- Completed MCA from **PATNA SCIENCE COLLEGE- PU** in 2016.
